

ID	My child has good access to a computer to complete their work.	If no, please add details eg. they share our home device with other family members.	Does your child enjoy online learning? If no, please give a reason why.	Your child receives the right amount of work to complete.	If you disagree or strongly disagree please can you give more details.	My child is coping well with the amount of work provided.	If no, please can you provide more details.	My child is feeling stressed/anxious at home.	If yes, please provide more details.	I feel confident helping my child(ren) learn at home.	If no, please provide more details.	How can our school provide more support for home learning?	Do you have any other comments?
1	Yes		Yes	Agree		Yes		No		No	It's getting hard to get my son to concentrate at times which then ends in an argument	Maybe having teachers online so that they can see each other for a small lesson	No
2	Yes		Yes	Strongly agree		Yes		No		Yes		I have found the support to be sufficient.	The support provided from teacher has been fabulous. Teacher has marked all work quickly and responds to messages quickly too. My daughter has enjoyed most of the work and it has been enough of a challenge to hold her interest. Although it can be difficult to juggle the home learning at times I have found the communication and organisation from the school excellent.
3	Yes		Yes	Agree		Yes		No		Yes		Nothing to add	
4	Yes		Yes	Agree		Yes		No		Yes		Nothing to add	
5	Yes		No	Find it hard to get my son to do this work and even for him to sit and concentrate.	Strongly agree	I think the work is just enough that is set a day.	No	Find it hard to complete 1 piece of work.	Yes	Different environment then it is at school. More distractions. I.e. Older siblings, noises etc. I know he missed his friends and his teacher. And being cooped at home for this amount of time is hard on him.	Yes	Apart from the Well out all of this. So for me his teacher and the school are doing an amazing job.	No more comments

6	Yes	Yes	Even though I answered yes she does prefer being in school to learn.	Agree	Yes	No	Yes	I have been very pleased with the amount of work my daughter has received and her teachers have been very contactable during this process.	I can see by the work sent through google classroom that my child's teachers have gone over and above in preparing and sending work to keep her learning whilst at home. I have felt supported also in helping her to learn at home. I am very grateful to teachers.			
7	Yes	No	It has been a battle to complete work. My child finds a school environment a better place to learn than at home.	Strongly agree	No	My child finds Maths tasks difficult to even try sometimes as there isn't examples to show them how to set out or approach the task. Work isn't set out clearly in a subject group e.g literacy where all literacy tasks can be found. All tasks are in a long list.	Yes	When asked to do work it becomes an issue every time. My child really needs to be in school and around friends.	No	Arguments arise and hugely lacking in tasks completed and so I feel my child has fallen behind and lacks confidence in their ability.	More contact between home and school and maybe a zoom as my child is in an older class. The children could then support each other as well as have the contact with friends and teacher.	It is a learning curve for us all as we have never been in a situation like this before.
8	Yes	Yes		Strongly agree	Yes	No	Yes			Home learning has been a success for us because we are fortunate that we have the time and ability to help our son when working through the tasks set and to expand his learning at home with other activities. He is very self motivated and keen to learn and we have the resources and knowledge to engage and stretch him. However there will be families who are not in our position and so for ongoing success, the school will need to provide more hands on teaching eg videos by the teaching staff of them delivering lessons.	We have been very pleased with teacher's efforts since March. Very nice to have received a phone call from teacher with good advice regarding home learning. Always receive encouraging feedback from teacher, marked work is returned promptly with helpful comments and always responsive to comments sent by us on google classroom.	

9	No	They use mobile devices	No	Child 1 thoroughly enjoys online learning however, child 2 with anxiety struggled from very early on as she doesnt cope well to change	Strongly agree	Yes	Child 2 is not for reasons explained above	Yes	Child 2 is very anxious and stressed at home trying to cope with the current strains of everyday life. I have raised this with teacher.	Yes	You really are doing amazingly well!	Thank you for the continued support during these difficult times I couldnt preside the school and staff enough.
10	Yes		Yes		Strongly agree	Yes		No		Yes	I felt the school provided a good amount of support to my child.	The Topic activities have been so interesting and fun to learn about for my child and myself! Thank you for taking the time to upload all the work and for the positive responses she has received from her teachers throughout.
11	No	We only have one computer in the house	No	Google class is too difficult to use. Very difficult for a child to be motivated sat in front on a computer, with one personal touch from the school.	Strongly disagree		Poorly executed work sent out, no explanation how to do the work. Some work sent out, Where you can't see the learning objective or an explanation of what they need to achieve. WorkSheets on the computer, you can't edit. Work on the computer doesn't allow any room to be creative.	No	No build up to some of the work sent out. As they don't seem to have any previous knowledge of doing some tasks. Nothing to help teach them how to do the work.	No	Yes	Video's to teach them, before they tackle a task. Choices of levels for each task. Clear learning objectives, so parents understand the purpose of each task and the child is on the right track. Feed back from teachers when the child has sent work in.

12	Yes	Yes		Agree	Yes	No	Yes	We have been happy with the amount of work and support provided. The teachers were always available and replied very quickly and have been very helpful. The only issue I can see is with Welsh. Neither my husband nor I speak Welsh and we have found it very difficult doing those lessons with our child. This is just something I believe is better done face-to-face.		
13	Yes	Yes		Strongly agree	No	Struggling to home school as successful as I would like but I feel, life is all about learning and we do this every minute of every day everyday.	No	Yes	I feel you have done all you can	I think the school and Reception staff has been outstanding.
14	Yes	Yes		Agree	Yes	No	Yes	Padre Pio provides ideal support for learning children at home.	No	
15	Yes	No	Easily distracted at home, would rather be playing with her siblings.	Agree	Yes	No	Yes	Communication with her teacher has been excellent, but maybe some worksheets or other resources to complete alongside the online work would make it less monotonous?		

16	Yes	Yes	Go at his own pace, no distractions	Strongly agree	Yes	Have had a few meltdowns but have had a positive experience also	No	Yes	Online classrooms would be good, like Zoom (or derivatives) sessions.
17	Yes	Yes		Agree	Yes		No	Yes	We have been happy that teacher has been happy learning from home during these strange times and we feel that school has provided the right tools to enable this to happen. Well done
18	Yes	No	When he is at home he does not feel that he should be doing schoolwork.	Strongly agree	Yes	The quality and quantity of the work provided has been excellent and appropriate to his needs, and at the start he completed the work without too much objection. However, as the weeks have passed his motivation and willingness to complete the work has progressively diminished.	No	Yes	<div>His teacher(s) have done a brilliant job, providing comprehensive materials and giving rapid and excellent feedback for the online learning. If online learning continues in the Autumn, the only additional support I can think of, is that of continued encouragement to the children with respect to working whilst at home. As mentioned what has become increasingly difficult is to enthuse and motivate.</div> <div>I would just like to reiterate my thanks to his class teacher (and his other teachers) for her (their) continuous hard work, with respect to the all the work provided and the feedback given. All the support has been extremely appreciated and ensured that his educational progress has continued unabated.</div>

19	Yes	Yes	Agree	No	She finds the work to much (me included) when both parents are still working it can be difficult to finish all the work that is posted. Some tasks are to long for my child to stay engaged.	No	Yes	Reduce the amount of work required for each task. Some tasks have 3/4 different parts. Engagement is an issue in reception and sometimes the work goes on for to long and my child shows a lack of interest. Smaller tasks would be far easier to complete it would also mean working parents could explain a smaller task so less support would be required in explaining every step. Juggling work and home schooling has been challenging as there are no 'quick' tasks to complete. They all require 10 minutes reading by the parent beforehand and a printed worksheet before being able to start the task. This can be time consuming.	The level of support has been fantastic and the challenge of work has been good. Just very difficult to manage in such large chunks.
20	Yes	No	Strongly agree	No		No	No	Maybe doing zoom classes with the children would be more helpful	

21	Yes	No	Too shy to put camera on and to participate. Too many children talking at one time for my child to feel they can participate effectively	Disagree	Poor communication to start so wasn't aware of when classes were. Some weeks they were just directed to another website	No	Again miss communication. Some work on one site then more on something else. So my child missed a lot of work in the beginning. Communicate with parents to not rely on young kids to pass on important information. Not receiving emails about school or work even though my email hasn't changed in years	Yes	Missed friends and general school atmosphere	No	Both parents still work throughout lockdown so was relying on my child passing on info and work. But this got muddled with other communication or messages from teachers so again work got missed	Better communication to parents not just to the kids. List of other learning /online resources at the beginning of lockdown would have been helpful. Ended up buying workbooks which cost a lot of money.	Update contact information. All communication was sent to a very old email address even though I updated info every year via data collection forms
